Puzzle # 651006 – October 2006 "Summit Meeting "

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to nine letters and include four proper names), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Seven across words and six down words won't fit in the grid unless one of their letters is removed. Those thirteen letters, taken in order, spell a two-word phrase related to the four mystery entries. As ever, I am indebted to Kevin Wald for help with the clues.
