

## Guest Puzzle "Curtain Call" by Darreby Ambler and Peter Stalker

**Instructions:** Guess the words defined by the cryptic clues (answers vary in length from three to nine letters, five are capitalized, one is foreign, and one is an abbreviation) then enter them in a 12 x 12 grid (see below) one after another, starting in the upper left corner. Across words that don't end at the right continue in the next row, and down words that don't end at the bottom continue in the next column. Nine across words and nine down words won't fit in the grid unless one of their letters is omitted. Those eighteen letters, taken in order as they occur in across and down words, spell a message related to the title of the puzzle. Hidden in the puzzle is the subject of all this fuss.
