

Puzzle #27 – August 2003 What is the title of this puzzle?

Instructions: Guess the words defined by the cryptic clues (words vary in length from three to eight letters), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below; down words that don't end at the bottom margin continue in the next column to the right. Seven across words and six down words won't fit in the grid unless one of their letters is omitted. Those thirteen letters, taken in order, spell two words related to three other words hidden in the completed grid that solvers are invited to find. The three hidden words should suggest a title for this puzzle. Answers include three proper names and one two-word phrase. As ever, I am grateful to Kevin Wald for help with the clues.
