

## Guest Puzzle by Arthur Schless – "Hat Trick"

**Instructions:** Guess the words defined by the cryptic clues (words, ten of them proper names, vary in length from three to ten letters, and include one variant spelling), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next line; down words that don't end at the

bottom continue in the next column. Six across words and five down words won't fit in the grid unless one of their letters is removed. Use those eleven letters with 1-across to make 12-down appear.
