

Puzzle #39 — August 2004 "What's Missing?"

Instructions: Guess the words defined by the cryptic clues (words vary in length from four to nine letters and include two proper names and one foreign word), then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right margin continue on the next line below; down words that don't end at the bottom margin continue in the next column to the right. Four words won't fit in the grid unless they are altered in a certain way; solvers are left to figure out how. Solvers are also invited to find another similarly altered word hidden in the completed grid and to answer the question posed by the title of this puzzle. As ever, I am indebted to Kevin Wald for help with the clues.
